

Our courses include a learning management system enabling administrators to view and track progress of employees, automate email notifications and reset courses for refresher training.

Key Benefits

Easy to navigate dashboard that can be configured to individual business requirements

Smart technology to meet AML compliance obligations.

Plug and Play. No hardware installation requirements.

Eliminate paper.
Automate processes.
Reduce human resourcing commitment and compliance costs.

Key Features

- Scored competency assessments
- Custom built activities to engage and reinforce learning.
- Automatic course bookmarking
- Professionally recorded audio with on/off/mute facility

Administrators can generate robust reporting on demand. Executives can rely on stable and detailed audit trails of training completion records.

Our courses are interactive with professional audio and animation. Participants can save and continue. The course is available for 12 months. Upon completion a certificate is rewarded.

The LearnForce Learning Management System makes your course available, anytime, anywhere, allowing training managers and administrators to record, assign and generate reports from a single administrative interface.
